Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

CONTINUED PROSECUTION APPLICATION

Applicants have filed a Request for a Continued Prosecution Application on August 5, 2002 in response to the First Office Action, mailed February 5, 2002. This Office Action is in response to the Request. Applicants have failed to respond to the First Office Action and have failed to submit an Amendment for consideration for this Continued Prosecution Application.

NON-EXAMINED CLAIMS

Claims 5-14 and 20-25 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claim have not been further treated on the merits.

BASIS FOR REJECTIONS

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- (c) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

- (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

REJECTION OF CLAIMS OVER PRIOR ART

Claims 1-4, 15, 16, 26 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Alain (French document no. 2,653,809). See Figures 1 and 4 where the dies 7, 8 are provided with an enlarged die part having a substantially U-shaped groove 10 where the metal can flow during the forging operation. The forging tool is shown at 6. Since the die has an identical shape as that shown by applicants, the dies 7, 8 have "means to alleviate stress to the workpiece during forging".

Claims 17-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Alain (French document no. 2,653,809) in view of Camping (5,799,528). Alain illustrates the claimed invention as noted supra. Alain does not show that the forging dies 7, 8 have a relief channel. However, such is known as shown by Camping at 39 so as to positively grip the elongated workpiece. It would have been obvious to the skilled artisan at the time of the invention to have modified Alain's forging dies by further providing the dies with a relief channel as taught by Camping so as to effectively grip the workpiece, particularly where the workpiece is formed with relief channels about its periphery.

EXAMINER'S RESPONSE

Applicants have failed to respond to the first Office Action, mailed February 5, 2002. Accordingly, the finality of this Office Action is deemed proper.

FINAL OFFICE ACTION

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
